External Glazing

These doors provide the ideal solution for homeowners looking to create an art-deco or industrial style for external doors. As well as homeowners, this product appeals to architects & specifiers working on larger refurbishments projects or listed building renovations where the requirement for replica slim line doors are required.

This door system is perfect for projects that specify super-slim sightlines to replicate old steel-look windows with a flush finish alongside high thermal performance and security.

This versatile residential/light commercial door system can be used as a front entrance door, side entrance door and rear entrance door and is available in both single and double door combinations.

Technical

- Single door max. width - 1100mm (frame)
- Single door max. height - 2500mm (frame)
